

CREEKSIDE LASER · HANDS-ON TRAINING

Laser Focused: M-Series Essential Skills

Three days on the GWeike M3 Ultra and the handheld fiber laser, in small groups, with three experienced instructors.

HOW THE WEEKEND RUNS

Friday afternoon

Everyone together: safety, machine setup and MLaser software.

All day Saturday and Sunday morning

The class splits into three small groups, and each group spends half a day at every station: two on Saturday, the third on Sunday morning. Sunday ends with a review and your questions.
